

# WordPress dashboard I forgot my password how do I reset?

You can access your wordpress dashboard from any computer by navigating to your website/Domain name and adding a (/wp-admin) at the end.

Example

**`www.example.com/wp-admin`**

This will bring you to your login page. You can click on reset password, the wizard will walk you through resetting your password to access.

If you have any trouble, please call Mountaineer IT and one of our representatives will be happy to help, (530)-478-9206
